San Selmo Smoked

european character

Kiln-fired in Italy, San Selmo Smoked clay bricks offer a subtle tonal palette designed specifically for contemporary architectural projects. The range is characterised by an elegant and carefully graduated selection of colours from pale hues through to the steely blue-greys.

Every brick is unique

Part of the beauty of clay bricks is that no two are identical. The kiln firing process, as well as the raw materials, can create a natural colour and texture variation - not only within packs but also from pack to pack.

The product images in our brochures give a general indication of colour for your preliminary selection.

We also recommend you view current product samples and look at actual finished projects before making your final decision.
